[Driver Lg U900 Windows 7](#)

The driver is not loading either from the Zune software or the phone I did not that the first time I scanned for the device from the device manager application it turned off the firewall, could this be the issue that is causing the driver not to load? Thanks again for your reply, but it still has not resolved the issue and I am still unable to sync or update my Windows 7 Smartphone.. Click on Apply The picture shows at a low resolution Set the display resolution with the TV resolution.

Thank you very much for your reply Have completed all steps to resolve the issue both from your reply and from the Zune software package and still am unable to connect my Windows 7 Smartphone to my computer or to the Zune software to update or to sync the phone.. So, using other monitor, i adjust new screen resolution setting for my LG monitor, and works fine.. md Oki Microline 380 Turbo Driver Windows 7: oki microline 380 turbo driver windows 7..
