I dislike preorders, but decided this "skin" was worth it, and don't get me wrong it is in my opinion the best outfit in the game, but the pre order price is bullshit.

And as far as I know, it doesn't change anything, so for a total singleplayer game, with only story? is it worth it.. Not pre-ordering for a DLC bonus from them again. Now knowing I can buy it separately later.. Chloe is the best :LOving:
